Our company advises both residents and non-residents in France on real estate investments and real estate legal issues in France.

We are specialized in HNWI customers from Middle East and other countries; we represent their interests in France.

We help our clients to find their ideal property or in the sale of their property. We work to solve legal and legal problems in compliance with French legislation, and advise them on the financial aspects of real estate investments.

We integrate in our service a complete patrimonial advice and we work with major actors in Paris (lawyers, notaries, banks, architects...).

We have exercised our skills and know-how in the legal and fiscal fields for more than 20 years; we offer our services in three languages, French, English and Arabic.
